

CRL Plus — Routes with Captures Inventory

Source: **eip-root_CRLPlus_fromTEST_July16th2026** | Generated: 2026-07-16 11:10 | Capture sink: 99 - *Capture Requests and Responses* (writes payload to \$\$Captures.Directory)

Total Routes	127	Routes With Captures	48	Capture Points	57	Routes Without	79
--------------	-----	----------------------	----	----------------	----	----------------	----

Each capture is a pair of processors: (1) **TransactionAttributePopulationProcessor** sets RouteName, then (2) **CallRouteProcessor** calls the Capture Requests and Responses route, which writes the transaction data to disk.
